MATCH BALL SPONSERS:

The Midland Bank Ltd.,

Good Evening Ladies and Gentlemen, To-night's programme is different from usual, as time rather ran out on us, however, we hope this communication will provide the basic information you require.

Firstly though, please welcome the Players, Officials, Directors and supporters of Kettering Town, and we hope the game will live up to the reputation that previous clashes have formed. Kettering have had a great season, with their record setting unbeaten run to start the Season, and their stay at or near the top of the league all season. It looks now as though nothing can stop Wimbledon from winning the Southern League for a third year in a row, never done before, even by the Merthyr teams of the post war era, we must congratulate them, and in doing so remember they will be the only team going forward for Football League consideration, a fact which will make Kettering have, as we do, mixed feelings, as we have led the non League attack over the past few years, with them.

It will be noted our first game against Minehead in the Somerset Premier Cup Final is at Bridgewater as Mineheads ground is now used by the Cricket Club, so those coming to support the team please go to the right ground-

Against Wimbledon and Mineaton we had our chances, not many to be sure, but both these Clubs took half chances and beat us one nil. Perhaps this reflects the story of our season, many chances, especially where they are hardest, away from Home, have been carved out and wasted - this we must correct, and will do all we can to remedy.

The bright point of the season must be the performance of the reserve team, something we were criticized for, but which must have proved it's point, with the players it has provided the Club with- In no small measure through Tony Pounder having joined the Club again. Well done.

Our thanks to-night also to the Midland Bank for the help they have given us in sponsoring the match ball, Local firms have helped us a lot this season, and thank you to all of them.
